Portfolio: Manunyi Godfrey — AI Engineer Portfolio (Next.js + Tailwind)

Professional Summary

Software developer who turns LLM prototypes that work in notebooks into features that work in production — evals, observability, and all. B.Tech in Computer Science with hands-on experience shipping web platforms, backend systems, and DevOps infrastructure, now specializing in RAG pipelines, agent systems, and evaluation-first engineering. I spot what the problem is and devise the solution — from retrieval quality and hallucination measurement to streaming, cost control, and CI-gated regression testing.

Core Skills

AI / LLM Engineering: Retrieval-Augmented Generation (RAG), LangChain, LlamaIndex, agent orchestration (LangGraph), evaluation frameworks (RAGAS), observability (Langfuse), prompt engineering, prompt versioning, guardrails

Languages: Python, JavaScript / TypeScript, PHP (Laravel), Java

Backend: Node.js / Express, FastAPI, REST API design

Data: MongoDB, PostgreSQL, MySQL, vector databases

Frontend: React / Next.js, Vue.js, HTML5, CSS3, Tailwind CSS

DevOps & Tooling: Git, Docker, CI/CD, Linux, cloud deployment, infrastructure management

Domains: Blockchain / Web3, recommender systems, ERP / SaaS, e-commerce

Work Experience

Software Developer (Remote) — Coin Fund LTD | 2025

• Built a form-filler Chrome extension (vanilla JavaScript, HTML, CSS, Chrome API) that automatically fills user details on job recruitment platforms, removing repetitive manual entry.
• Maintain the Node.js backend: trace and fix bugs, implement new features, keep production stable.

Head of ICT — Agrichainx Innovative Technologies Ltd | 2021 – Present | Abuja, Nigeria

• Build, maintain, and update the company website; manage the full ICT infrastructure.
• Maintain the Node.js backend: bug triage, fixes, and feature delivery.
• DevOps ownership: deployments, environment management, monitoring.
• Contributed to product launches including token creation and presale operations.

Software Developer Intern — Avaken Bootcamp | 2019 | Gboko, Nigeria

• Contributed to a team-built web application for the company's cooperative society.
• Delivered programming tutorials and onboarding for new interns.
